## Students Says About Nexus Study Portal

I started by searching on Google for courses that suited my interest and I was redirected to different websites, one of which is [Nexus Study Portal](#), which turned out to be the most useful. I chose Vytautas Magnus University (Lithuania) because it was the most affordable for me and the course completely suited my needs. Nexus Study Portal helped by giving me a wide range of detailed options of schools and courses to choose from. I did not have an idea of either the course or the university I wanted to attend. At the initial stage, before the

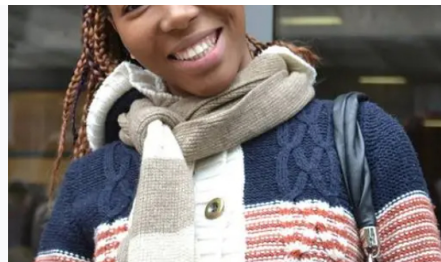

application, I received all the necessary information about the course and school, through a direct website link to the course.

My advice to students from my country who wish to study abroad is to first find out what they want to study and then do a rigorous search on Nexus Study Portal to find options of schools and countries offering that course.

If I were to do things again, I would only spend less time searching for schools and countries and go directly to [Nexus Study Portal](#)."

**Angela Buchi Gbandi**, Nigeria
